March 17, 2016

TO: Pool Handlers
FROM: Erik F. Rasmussen, Market Administrator
SUBJECT: Request for Temporary Dumped Milk Policy

Pool handlers in the Northeast, Central and Mideast Federal Orders have requested a relaxation of the pooling requirements for dumped milk during the spring flush and summer holiday period due to anticipated surplus supply conditions.

The Market Administrators of Federal Orders **1**, **32**, and **33** have agreed to the following temporary policy for the pooling of milk dumped at farm or other non-plant locations due to present surplus milk conditions:

Temporary plant delivery exception for the time period of April 1 through July 15, 2016, for Orders 1, 32 and 33.

*Producers that take advantage of this temporary policy must have been a pool producer for **all** of their commercially marketed production for the months of March through July 2016.*

The milk must be picked up at the farm, measured and sampled for payment. The tanker test will be a weighted average of the producer tests.

Notification should be given to the Market Administrator's office by the next business day, or as soon as practicable, when the milk is dumped. At pool time we need the producers on the load, the tests, location of the dump and the nearest plant to that location.
